Kako se razvije ta bolezen?
Kdaj so jo odkrili?
S katerim virusom je povezana?
Koliko ljudi je okuženih s tem
virusom?

RAZUMI IN SPREJMI!

Težava pa ni le v
simptomih in znakih
AIDS-a, ampak...

SIMBOL

Zato si v znak
boja proti AIDS-u
pripnimo...

1 in 4 people with HIV don't know they have it.
Know your risks – know your status.

You can be at risk of HIV if you:

- Have sex without a condom
- Receive unsafe blood transfusion
- Are exposed to contaminated injecting equipment

HIV can also be transmitted from
mother to child.

BODI IZOBRAŽEN!
