Kaj pomeni kratca AIDS?

Kako se razvije ta bolezen?

Kdaj so jo odkrili?

Koliko ljudi je okuženih s tem virusom?

## "NOT ENDING AIDS IS MORE EXPENSIVE THAN ENDING IT"

Diagnose	Treat	Prevent	Respond
Diagnose all individuals with HIV as early as possible.	Treat people with HIV rapidly and effectively to reach sustained viral suppression.	Prevent new HIV transmissions by using proven interventions, including pre-exposure prophylaxis (PrEP) and syringe services programs (SSPs).	Respond quickly to potential HIV outbreaks to get needed prevention and treatment services to people who need them.
